

THE BRIDGE

ALL-IN-ONE POINT OF SALE

PREMIUM INTEGRATED PAYMENT SOLUTION

With ECR and ETR functionality, the Bridge incorporates the key features of a traditional POS/ECR device into a dynamic and compact tablet based solution, flexible to merchant's needs. The provided API offers a rich and simple way to develop or port any ECR application. Extensive optional features such as the Bluetooth barcode scanner, mounted dual-LCD merchant and customer display, cash drawer, and EMV smart PIN pad further tailor each user's experience to their specific needs.

INTEGRATED SOLUTION

- compact footprint & cable management
- unified design for low maintenance
- integrated Android or Windows tablet

PRINTER

- 3" high speed thermal
- easy access, easy loading
- graphics capable, 200mm/s speed

EMV
