

FOR IMMEDIATE RELEASE

AURORA PARTNERS WITH AMP (ADVANCED MOBILE PAYMENT) –

Full-service provider signs reseller agreement of AMP POS solutions & products.

Tempe, AZ, April, 2020 – Aurora, a leading full-service provider (FSP) in the payments industry, has announced the partnership with AMP (Advanced Mobile Payment Inc.). The VAR agreement includes innovative technology for the payments industry.

AMP is more than a first-class point-of-sale provider with Android-based technology and state-of-the-art software, AMP solutions are enhancing user experience and increasing customer satisfaction across all industries. The Aurora and AMP reseller agreement will include several POS terminals that will benefit today's business conditions including unattended and contactless payment technology. "In just a few short months, our world has changed drastically, and this includes the way that payments are being made. We want to support our small-to-medium size businesses with the tools and technology that they need now and the future," stated, Brian Goudie, Aurora CEO. "The products and solutions from AMP have the unique features and capabilities that are required today and are on an agile platform that will allow for future advancements and growth opportunities for our clients."

As a full-service provider (FSP), Aurora has an extensive network and unique partnerships for focused industry payment solutions. "The reseller agreement is just the beginning of an exciting partnership," said Robert Downton, AMP's VP of Sales for North America, "AMP and Aurora have a collaborative relationship with the shared goal of the growth and success of our customers and the satisfaction of consumers.

One ecosystem. One agreement. One partner. One Aurora. For more information please visit <https://www.risewithaurora.com>.

About AMP

Advanced Mobile Payment Inc. (AMP) is a global provider of complete payment solutions and POS products built around usability, security, and smart integration options. Equipped with the latest certifications and able to integrate with any platform, AMP delivers tools designed to keep transactions secure and improve the payment experience. Their focus is working with partners to develop targeted solutions that deliver maximum value to the end user, aiming to empower others with their tools, rather than box them in with inflexible off-the-shelf products. From creating smart payment devices to designing entire solutions, AMP work collaboratively to solve customer's unique payment challenges.
